

## Fiber Holder FH-60 series

The FH-60 series single fiber holder and FH-FC series cable fiber holder are exclusively used for Fujikura 70 series, 22 series, 12 series, and former Fujikura Splicers.

The Fujikura Fiber Holder System is developed to provide appropriate splicing work for several kinds of fibers, 250um fiber, 900um fiber, loose tube fiber, drop cable, 3mm cable or 2mm cable.

The FH-60 series and FH-FC-30 are supplied with a pair, for the left and the right respectively.

As for fiber holder for ribbon fiber, please see FH-50 series datasheet.

SPECIFICATION		FH-60-250&900	FH-60-LT900, FH-FC-20&30
Applicable number of fiber		Single	
Type variation		In accordance with outside diameter of fiber Please see VARIATION table below	
Fiber holding		Magnetic clamping	
Fiber Holder placing onto splicer		Guide-pin system with two pins per one side of Fiber Holder	
Dimensions		38L x 16W x 7H [mm]	41L x 18W x 8H [mm]
Weight		20g for 1pair	22g for 1pair
Material		Base plate: Heat-hardening plastic / Lid: Iron-Nickel alloy	
Use for	Arc Fusion Splicer	Single	70S, 19S, 12S and former Fujikura single fiber splicer
		Ribbon	70R, 19R, 12R and former Fujikura mass fiber splicer
	Fiber Cleaver	CT-30, CT-05	
	Jacket Stripper	HJS-02, HJS-03 (FH-60-250 only)	

VARIATION						
Model	FH-60-250	FH-60-900	FH-60-LT900	FH-60-DC250	FH-FC-30	FH-FC-20
Fiber	Single (250µm)	Single (900µm)	Loose Tube Single Fiber (900µm)	Drop Cable Single(250um)	3mm Cable	2mm Cable (Left only)

Note) The FH-60 series can be used for Fujikura former models of splicers or fiber cleavers.

Specifications and descriptions are subject to change without prior notice.
