FIP-S / FIP-USB / FP and Accessories

- Back panel connector inspection
- Lightweight and ergonomic
- Handheld or FTB-400/PC display or FOT-930
- FTB-400/ISQ-500/PC image-capture capability
- Compatible with EXFO products
- Solutions for all types of connectors, APC and UPC

Telecom Test and Measurement

EXFO
EXPERTISE REACHING OUT
Innovative Image-Capture Technology

Checking connectors and other fiber terminations for polish quality and cleanliness is crucial in modern high-bandwidth systems. Neglect may lead to signal loss in networks, leading to further troubleshooting, lost time and greater expense.

INSPECT HARD-TO-REACH CONNECTORS
Avoid these problems with the FIP-S/FIP-USB Video Fiber Inspection Probe, a handheld video microscope. Unlike traditional microscopes, the inspection probe facilitates the examination of hard-to-reach connectors on the back of patch panels and bulkhead adapters. It also lets you check the inside of connectors without taking them apart. EXFO offers two ways to achieve clear, sharp images of termination dirt and damage—a convenient handheld display, or our market-leading FTB-400 Universal Test System.

FTB-400/IQS-500: SEE THE POSSIBILITIES
Connect the probe to an FTB-400 Universal Test System and IQS-500 with its 12.1-inch screen or a PC via an image-capture unit to view the fiber endface. This innovative technology draws its power from the USB portand requires no additional battery packs or cabling. Use the unit with specialized software for digital image-capture and sharpening, as well as data storage.

Software Analysis Features and Benefits:
- Automatic debris and defect detection, including fine scratches
- Measurement of epoxy ring for out-of-tolerance conditions
- Printable/archivable inspection results, including image data
- Based on industry standards or user-defined threshold settings

KEY FEATURES
- Direct USB output port
- Simple one-cable design
- Basic capture and image-sharpening software
- Save digital images directly to your PC
- (Windows 2000 compatibility only or FTB-400/IQS-500)
EXCELLENT IMAGES IN HAND
Connect the probe directly to the compact, handheld active matrix LCD screen for safe, efficient inspection. The probe’s high-magnification optics project a 530-micron field of view onto the handheld’s bright, high-contrast 3.5-inch TFT active matrix LCD display. The handheld display features an Auto-Shutoff interval switch with three settings to ensure long-lasting battery life.

OUTSTANDING FIBER PROBE FEATURES
This compact, lightweight fiber inspection probe contains a coaxial LED light source and a mini CCD video camera, (1/3 in), with a 530 µm field of view and a choice of 200x, 400x or 500x magnification. The probe handle has a small, conveniently positioned focusing device. Simply turn the mechanism until you reach the desired sharpness. The tip of the handle mates with the female bulkhead connector on the patch panel or mating connector and pre-centers the image on the screen. The small probe holds itself in place for hands-free operation. The instrument comes with a standard, built-in NiMH rechargeable battery for use with the handheld active matrix LCD screen.

**SPECIFICATIONS**

**Handheld Display**
- **FIP-HD1**: Handheld video display (comes with US, Euro or UK plugs)
- **Weight**: 0.4 kg (0.8 lb)
- **Display**: 9 cm (3 1/2 in) TFT active matrix (320 x 240 pixels)
- **Video input**: NTSC, 4-pin interface probe or conversion cable for 6-pin interface and USB interface
- **Power**: Rechargeable NiMH battery or AC power adapter (comes with US, EURO or UK plugs)
- **Battery life**: 2 h
- **Dimensions (H x W x D)**: 5.3 cm x 10 cm x 22 cm (1 1/16 in x 4 in x 8 1/16 in)

**Video Inspection Probe**
- **Weight**: 0.18 kg (0.4 lb)
- **Optical magnification**: 200x, 400x or 500x
- **Camera type**: CCD, 1/4 in
- **Light source**: Blue LED, internal to probe
- **Focus control**: Adjustable in probe
- **Lighting technique**: Coaxial
- **Dimensions (H x W x D)**: 4.3 cm x 4.6 cm x 14 cm (1 1/16 in x 1 13/16 in x 5 1/2 in)

**General Specifications**
- **Temperature**: 
  - Operating: 0 °C to 40 °C (32 °F to 104 °F)
  - Storage: −10 °C to 60 °C (14 °F to 140 °F)
- **Relative humidity**: 0% to 95% non-condensing

**OPTIONAL ACCESSORIES**

**Video Inspection Probe**
- **Adapter Tips**:
  - Fipt-ST: ST tip for bulkhead adapter
  - Fipt-STL: Long-reach ST tip for bulkhead adapter
  - Fipt-SC: SC tip for bulkhead adapter
  - Fipt-SC/SC-P: SC tip for bulkhead adapter
  - Fipt-Fc: FC tip for bulkhead adapter
  - Fipt-Fc-P: Pro-version FC tip for bulkhead for hands-free operation
  - Fipt-Tc: FC tip for bulkhead adapter with angled connector

**Handheld Display**
- **Model**: FIP-HD1
- **Weight**: 0.18 kg (0.4 lb)
- **Dimensions (H x W x D)**: 5.3 cm x 10 cm x 22 cm (1 1/16 in x 4 in x 8 1/16 in)

**USB Module and Software**
- **Model**: FIP-USB3
- **Weight**: 0.4 kg (0.8 lb)
- **Dimensions (H x W x D)**: 4.3 cm x 4.6 cm x 14 cm (1 1/16 in x 1 13/16 in x 5 1/2 in)

**STANDARD ACCESSORIES**

**Video Inspection Probe**
- **Video Output Module**
  - **Model**: FIP-VO2
  - **for USA**: FIP-VO2-USA
  - **for Europe**: FIP-VO2-EU

**Handheld Display**
- **Model**: FIP-HD1
- **for USA**: FIP-HD1-USA
- **for Europe**: FIP-HD1-EU
- **for UK**: FIP-HD1-UK

**USB Module and Software**
- **Model**: FIP-USB
  - **for USA**: FIP-USB-USA
  - **for Europe**: FIP-USB-EU
  - **for UK**: FIP-USB-UK

**ORDERING INFORMATION**

**FIP-SXX-XX**
- **Model**: FIP-S1 (FPI-P1 200x magnification) power supply for North America
  - **EU**: FIP-S1-EU (FPI-P1 200x magnification) power supply for Europe
  - **UK**: FIP-S1-UK (FPI-P1 200x magnification) power supply for UK

**FIP-US BX**
- **Model**: FIP-US2 (FIP-P1 200x magnification) power supply for North America
  - **EU**: FIP-US2-EU (FIP-P1 200x and 400x magnification)

**STANDARD ACCESSORIES**

**Video Inspection Probe**
- **Model**: FIP-VO2 (FIP-P1 or FIP-P5), FC tip (FIPT-FC), SC tip (FIPT-SC), universal 2.5 mm patchcord tip (FIPT-U25M). Example: FIP-VO2-USA

**FIP-HD1  for USA**
- **Probe (FIP-P1 or FIP-P5)**, FC tip (FIPT-FC), SC tip (FIPT-SC), universal 2.5 mm patchcord tip (FIPT-U25M).

**STANDARD ACCESSORIES**

**Probe (FIP-P1 or FIP-P5)**, FC tip (FIPT-FC), SC tip (FIPT-SC), universal 2.5 mm patchcord tip (FIPT-U25M).
